

Lt. Col. G. J. Moore, Jr.
Project Officer, Project Treasure Island
George A. Pughs, Jr.
Chief, Air Information Division
Materials Exploited to date by Treasure Island

June 19, 1951

Enclosed you will find an original and two copies of a listing which reflects the newspapers, periodicals, monographs, and miscellaneous publications exploited to date by the Treasure Island Project (Air Information Division). This listing does not include publications exploited during the period when such exploitation was performed by the Air Research Unit, since the "kill" process was not used at that time.

Monographic Titles are listed by subject classification, with name of author (where available) and date of publication. These titles are also numbered for identification purposes.

Miscellaneous material (page 29) includes charts, photographs, and one microfilm.

In accordance with our agreement with the Central Intelligence Agency, we shall forward a similar listing on a monthly basis showing publications selected for and in the process of exploitation by Treasure Island.
